

## Fossil Brick Recipe

\*Do this recipe in batches as mixture hardens quickly.

### Ingredients:

1 Cup Plaster of Paris

1 Cup play sand

$\frac{3}{4}$  Cup water

Makes 4 bricks

### Directions:

1. Thoroughly mix plaster and sand.
2. Add water and stir quickly. Mixture begins to set immediately.
3. Pour enough mixture into each mold to cover bottom.
4. Add fossils to each mold.
5. Cover fossils with remaining mixture.
6. Allow bricks to set (around 20 minutes).
7. Carefully remove bricks from mold. Allow to dry thoroughly. Bricks can rest for 3 days or be placed in a 200°F oven for 1 hour.
