

HOW TO MAKE SLIME

Ingredients

1 - 4 fl. oz. bottle White School Glue

$\frac{1}{2}$ TBSP Baking Soda

1 TBSP Contact Lens Solution

Food Coloring (your choice of colors)

Sparkles, Pom Poms (optional)

Step 1

Mix together all white school glue and $\frac{1}{2}$ TBSP baking soda in a bowl.

Step 2

Add desired amount of food coloring, then add 1 TBSP contact lens solution. Mix until slime begins to form.

Step 3

Take slime out of the bowl and begin kneading with both hands. If needed, add $\frac{1}{4}$ TBSP contact lens solution to make slime less sticky.

Step 4

Add any additional ingredients, like glitter, pomp oms etc., if desired.
